DETAILED ACTION

1. The request filed on 1/14/02 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/194,053 is acceptable and a CPA has been established. An action on the CPA follows.
2. This application contains inventions drawn to patentably distinct species. Applicant is required under 35 U.S.C. § 121 to elect a **specific** chemical ligand, such as one of those listed in Claim 69. Applicant is advised that all pending product claims are considered to be generic and all will be examined with Claim 87, which recites a process of making said product. Applicant is further advised that Claim 87 will be objected to as depending on canceled Claims 69 and 67.
3. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

The different chemical ligands, comprise unrelated chemical structures and bind different receptors on monocytes. Therefore, the species are independent and patentable over one another.
4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
5. Any inquiry concerning this communication from the examiner should be directed to Dr. Gerald Ewoldt whose telephone number is (703) 308-9805. The examiner can normally be reached Monday through Thursday from 7:30 am to 5:30 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (703) 308-3973.
